Jack Dongarra
Distinguished Professor
Department of Computer Science

Dear Jack,

I am pleased to lend the support of the Science Alliance to the graduate minor in computational science. The program is a good first step in this important area. I think that the internship component and potential for participation by joint faculty will add another means of cooperation and collaboration between UT and ORNL.

Best regards,

A handwritten signature in black ink, appearing to read "J. H. Poore".

J. H. Poore, Professor and Director
Ericsoon-Harlan D. Mills Chair in Software Engineering
